## Personal Projects

### Chatting

In Progress

- To develop a web app which allows users to have private chats with friends and public group chats
- This app will be developed using NodeJS, ExpressJS, ReactJS, MongoDB, and Socket.IO

### Snake Game

Duration: 3 days

- Developed a snake game which player has control over the snake to collect apple; then the scores are uploaded to a web leaderboard
- Developed the game using Python, Pygame, MySQL, and Flask
- Developed difficult levels to adjust speed of snake and score per apple

## Academic Projects

### Scheduler

*Industry Sponsored Student Projects - This project is on trial in the NICU at BC Women's Hospital*

January 2021 – April 2021

- To expand and improve a web-based application provides better schedule functions based on nurse's discipline, patient needs, and consistency of shift assignments
- The application was developed using Python, Flask, Jinja, jQuery, Bootstrap and MySQL
- Developed on algorithms to make more accurate assignments
- Implemented filtered dropdown lists to anticipate conflicts in assignments
- Applied Agile methodology and built relationship with team members and clients

### Maze Game

*Object-oriented Programming*

October 2020 – November 2020

- Developed a maze game that player has control over the character to explore the maze and collect items within duration; then the results are uploaded to a web leaderboard
- Developed the game using Python language, Pygame module and Model-view-controller pattern
- Developed and debugged the game with Test-driven Development process using pytest
- Applied Agile methodology and built relationship with team members
- Collaborated with team members on GitHub such as creating, pulling, pushing, and merging branches and resolved merge conflicts

### Social Reminder

*Developing Web Applications*

October 2020 – November 2020

- Developed a reminder app that enables user account creations, reminder creation, reminder modification and deletion. It also allows user to share reminders with friends.
- Developed the app using JavaScript language, NodeJS, ExpressJS, EJS, Bootstrap and MongoDB

Portfolio: <http://qidang.me/>

GitHub: <https://github.com/QI-D>

LinkedIn: <https://www.linkedin.com/in/qi-dang-84594311b/>

- Established cookie session which stores credentials to maintain an active session for users
- Collaborated with three team members using Agile methodology and manage repository on GitHub

## Education

### British Columbia Institute of Technology, Vancouver, BC

- Computer Information Technology - GPA: 88%

Winter 2020 - Present

Expected Graduation: April 2022

### Camosun College, Victoria, BC

- Associate of Science Degree

Jan 2018 – April 2018

### University of Victoria, Victoria, BC

- Computer Science

Sept 2016 – Dec 2017
