## Projects

### Scheduler

*IT Projects Practicum - This project will be trialed in the NICU at BC Women's Hospital*

January 2021 – April 2021

- To expand and improve a web-based application provides better schedule functions based on nurse's discipline, patient needs, and consistency of shift assignments
- The application was developed using Python, Flask, Jinja, jQuery, Bootstrap and MySQL
- Further development of algorithms to make more accurate assignments
- Implementing alert to anticipate conflicts in assignments
- Applying Agile methodology and building relationship with team members and clients

### Maze Game

*Object-oriented Programming*

October 2020 – November 2020

- Developed a maze game that player has control over the character to explore the maze and collect items within duration; then the results are uploaded to a web leaderboard
- Developed the game using Python language, PyGame module and Model-view-controller pattern
- Developed and debugged the game with Test-driven Development process using pytest
- Applied Agile methodology and built relationship with team members
- Collaborated with team members on GitHub such as creating, pulling, pushing, and merging branches and resolved merge conflicts

### Social Reminder

*Developing Web Applications*

October 2020 – November 2020

- Developed a reminder app that enables user account creations, reminder creation, reminder modification and deletion. It also allows user to share reminders with friends.
